

**Electrical Engineering Technician/Technologist
and
Energy Systems Engineering Technologist
1st Year Tool Kit**

For your time at Conestoga College, you will need a tool kit to work on your projects in your various lab classes. Conestoga College, in partnership with Graybar Canada and Klein Tools, offers a high quality and competitively price kit which includes:

- 3/16" x 4" HD Slot Cabinet Screwdriver
- # 2 x 4" Phillips Screwdriver
- 8" WireMan Diagonal Cutting Dipped Handle Pliers
- 9-1/4" lase edge Side Cutting (Lineman's) Dipped Handle Pliers
- 6" WireMan Long-Nose Dipped Handle Pliers
- # 1 Green Robertson Screwdriver
- # 2 Red Robertson Screwdriver
- 1/8" x 4" Slim Electronics Cabinet Screwdriver
- T-Stripper, 10-18 AWG
- Digital Autoranging MultMeter (CATIII)
- 500mA (500V) Fuse (spare)
- 10A (1000V) Fuse (spare)

The price of the kit is in the \$200 range, however if you have tools at home, you are more than welcome to bring and use those. Please note that the CATIII DMM is required. This kit will be available for purchase at the Cambridge campus during the first two weeks of school in September. You will receive more instructions during your orientation session.
