Benjamin Kakavand, PhD,
Program Coordinator
International Business Management Degree Program

As an ongoing review process High Performance Solutions and Consortium certifies that Supply Chain Management major graduates of the International Business Management Degree Program meet the requirements for a 6 Sigma Yellow Belt. Within the context of the program and its theme of 'continuous improvement', the Designing and Managing the Supply Chain (OPER73000) course, the Quality Planning And Analysis (BUS74050) course, the Applied Statistics (STAT72785) course, the Research Methods (RSCH73100) course, the Operations Management I (OPER71260) course, and the Operations Management II (OPER72010) course offered by Conestoga College provide students with the knowledge and practical skills to immediately add value to any organization. In addition to the aforementioned courses, students complete two semester-based consulting projects.

We would like to review the material in three years to ensure the Program content continues to meet the Yellow Belt requirements. The next review would be completed by December 31st, 2023.

Regards,

Scott Smith, MBA
