#### **Hazard Identification and Assessment Form Reference**

The following guidance is based on the ANSI B11.TR3-2000: ANSI Technical Report for Machine Tools-Risk Assessment and Risk Reduction-A Guide to Estimate, Evaluate and Reduce Risks Associated with Machine Tools.

# **Severity of Harm:**

Catastrophic – death or permanently disabling injury or illness (unable to return to work)

Serious – severe debilitating injury or illness (able to return to work at some point)

Moderate – significant injury or illness requiring more than first aid (able to return to same job)

Minor – no injury or slight injury requiring no more than first aid (little or no lost work time)

# **Probability of Occurrence of Harm:**

Very likely - near certain to occur Likely - may occur Unlikely - not likely to occur Remote - so unlikely as to be near zero

Items to consider when evaluating probability include history of injuries, training level of personnel performing the tasks, reliability of safety functions, frequency and duration of exposure and number of persons exposed.

# **Risk Level Determination**

To identify the Risk Level, match the Severity of Harm with the Probability of Occurrence of Harm. See Examples below.

- A. If the Severity is 'serious' and the Probability is 'likely', the Risk Level would be 'high'.
- B. If the Severity was 'minor' and the Probability is 'remote', the Risk Level would be 'negligible'.

### **Table 1: Risk Estimation Matrix**

| Probability of     |              | Severity of Harm |            |            |  |  |  |
|--------------------|--------------|------------------|------------|------------|--|--|--|
| Occurrence of Harm | Catastrophic | Serious          | Moderate   | Minor      |  |  |  |
| Very Likely        | High         | High             | High       | Medium     |  |  |  |
| Likely             | High         | High             | Medium     | Low        |  |  |  |
| Unlikely           | Medium       | Medium           | Low        | Negligible |  |  |  |
| Remote             | Low          | Low              | Negligible | Negligible |  |  |  |
